### **RATP Dev announces regional Asia-Pacific headquarters in Singapore**

- RATP Dev Asia Pacific to open October 1, 2018
- Shaun Tan announced as RATP Dev General Manager, Singapore
- RATP Dev to support Singapore's Smart Mobility 2030 vision

RATP Dev, one of the world's leading public transport companies, announces today that it will open a new subsidiary in Singapore on October 1, 2018 to become its regional headquarters for Asia Pacific. RATP Dev Asia Pacific will bring RATP Dev's market-leading strengths in developing innovative urban transport solutions to one of the world's most exciting transport environments.

Singapore's Land Transport Authority has outlined ambitious plans for smart mobility through its Smart Mobility 2030 vision. With its deep international experience, across 14 countries, in multimodal network operations, RATP Dev aims to build solid cooperation with the Singapore's public transport authorities and operators by setting up partnerships and creating additional value for residents and visitors.

The new subsidiary will be led by Shaun Tan, who has been appointed General Manager, Singapore. With over 20 years of experience in the transport sector, Shaun brings RATP Dev's international expertise and innovation to complement Singapore's existing transport know-how.

Commenting in Singapore, RATP Dev's Chief Executive Officer Laurence Batlle said: "I am delighted to announce RATP Dev's entry into the Singapore market. Singapore has, throughout its history, demonstrated an amazing capacity to innovate and provide world-class services. It is natural therefore that it is investigating mobility services of the future.

"We wish to become a trusted and long-standing partner to Singapore's public transport stakeholders and help the city fulfill its ambition to be one of the smartest transport cities in the world. I'm confident that Shaun will play an integral role in ensuring we achieve our goals."

-Ends-

#### **About RATP Dev**

Founded in 2002, RATP Dev operates and maintains urban transportation systems in 14 countries on four continents (United Kingdom, France, Italy, Switzerland, Algeria, Morocco, South Africa, Saudi Arabia, Qatar, India, China, South Korea, the Philippines, and the United States of America). With more than 1.5 billion passengers travelling on its networks every year, RATP Dev demonstrates

every day its extensive and renowned expertise in a wide range of mobility services, ranging from rail, regional express rail, tramway, to bus, cable car and sightseeing activities. RATP Dev leverages in France, outside of Paris, and across international markets, the technical expertise and experience of RATP Group, the leader in driverless and tramway operations and operator of the Paris network, one of the largest public transportation networks in the world.

## **About RATP Group**

With nearly 16 million daily passengers worldwide, RATP Group is the fifth largest urban transportation operator in the world. With its 14 metro lines (including two driverless lines), two regional express rail lines, seven tramway lines and 350 bus lines, the multimodal network operated by RATP in the Paris region is the largest in the world to be managed by a single company.

RATP Group can devise, design and implement infrastructure development projects, operate and maintain networks irrespective of the mode of transportation (metro, regional train, tramway and bus) and develop innovative services to promote mobility (including passenger information, remote ticketing, pricing and customer marketing). The automation of the Paris metro's line 1 completed at the end of 2012 is a world's first and once again demonstrated RATP Group skill in concluding particularly complex projects.

RATP Group exports its know-how all over the world; in engineering through Systra, its subsidiary jointly owned with SNCF, in operations and maintenance via its wholly-owned RATP Dev subsidiary and in innovative services to promote mobility through its IXXI subsidiary.

RATP Group has a workforce of nearly 61,000 employees worldwide and in 2017 generated revenue of 5.5 billion euros.
