

PRESS RELEASE

RATP Dev takes full control of RDTA transport operations in Asia.

22nd October 2020

RATP Dev announces today that it has become the 100% owner of the RDTA (“RATP Dev Transdev Asia”) joint venture. The move sees RATP Dev assume full control of the previously jointly owned operations across Asia, which includes Hong Kong Tramways.

RDTA was initially founded in 2009, with a view to modernizing, upgrading and improving the efficiency of key transport networks across Asia. Prior to the purchase of all RDTA shares, Transdev and RATP Dev owned each 50% of the joint venture.

Speaking on the announcement, Olivier Badard, CEO RATP Dev Asia Pacific, Middle East and North Africa said “RATP Dev is committed to using its knowledge and expertise from decades of experience to develop the highest quality public transport networks in the world. This further step we are taking in Asia highlights our ambition to support transport authorities across the region in their efforts to rethink and adapt public transit to a post-Covid reality, whilst delivering high performance services centered around the needs of cities and commuters”.

The new ownership structure will allow RATP Dev to continue investing in ensuring public transport services across the region remain amongst some of the best performing in the world.

Notes to editors

- RATP Dev Transdev Asia (RDTA) was founded in 2009 as a joint venture between transport operators RATP Dev and Transdev
- RATP Dev operates across 4 continents, 13 countries, through 107 operating units.
- RATP Dev networks transport over 1.5 billion passengers across the world each year

About RATP Dev

Founded in 2002, RATP Dev operates and maintains urban transportation systems in 13 countries on four continents (United Kingdom, France, Italy, Switzerland, Algeria, Morocco, South Africa, Egypt, Saudi Arabia, Qatar, Hong Kong, the Philippines, and the United States of America). With more than 1.5 billion passengers travelling on its networks every year, RATP Dev demonstrates every day its extensive and renowned expertise in a wide range of mobility services, ranging from rail, regional express rail, tramway, to bus, cable car and sightseeing activities. RATP Dev leverages in France, outside of Paris, and across international markets, the technical expertise and experience of RATP Group, the leader in driverless and tramway operations and operator of the Paris network, one of the largest public transportation networks in the world.
