

## PRESS RELEASE

Brest, 31 March 2020

**At the request of Brest Métropole elected representatives, Bibus is making electric bicycles available to healthcare professionals and restating its transport offering tailored to the needs of vital workers.**

### **Free loan during the crisis**

Bibus is supporting healthcare professionals during the health crisis at the request of Brest Métropole and is lending electric bicycles at no charge for one month, which may be renewed depending on developments.

To be eligible, all the healthcare professional has to do is complete an [on-line form](#) available on the bibus.fr website and social networks. S/he must also attach proof of his or her job along with identity papers.

This offer is, of course, valid while stocks last.

### **Transport offering tailored to workers' needs**

It should be remembered that Bibus had consulted hospitals and nursing homes in and around the conurbation about their travel arrangements and had bolstered its transport offering at the start and end of the day with effect from Tuesday, 24 March.

Service times begin at 6 a.m. and end at 10 p.m. with the following frequencies:

- 30 minutes on the tramway and line 1 Fort Montbarey – Hôpital Cavale
- 45 minutes on line 3 Océanopolis – Lambézellec
- 60 minutes on all other lines.

A transport-on-demand service will also be implemented between 10 p.m. and midnight for line 1 between Cavale Blanche and Hôpital Morvan. The service can be booked up to the day before for a specific journey by calling 02 98 34 42 22 (booking service operates between 7.30 a.m. and 7 p.m. Monday to Friday and 9 a.m. till 5 p.m. on Saturdays).

### **Bibus reminds passengers of travel rules**

Bibus reminds all passengers that they must restrict their journeys to the bare minimum. Passengers must also travel with their professional travel authorisation or a travel restriction exemption on all journeys. All other journeys are forbidden.

Both in the station and aboard vehicles it is vital to keep at least one metre's distance from other travellers and to apply 'barrier' gestures.
